

# ETNASTONE

## TABLES

Etnastone Tables can be entirely customized in different types of lavastone finishes.

### TABLETOP FINISH

Tabletops can be customized in a plain color or painted finish. All colors listed for plain tabletops are available in the painted finish.

The process of glass fusion, used to obtain the highly resistant and unchangeable colored surface, is an original technique from the Mount Etna region, in Sicily. Slight tonal differences and surface irregularities are part of the unique finish.

### LEG FINISH

Legs can be customized in several different finishes: Natural, Chiseled, Blackened and Colored.
